## TERRENCE J. BOBROWSKI RETIRES AFTER 35 YEARS OF SERVICE

Terrence (Terry) J. Bobrowski retires after 35 years of service to the East Tennessee Development District (ETDD), a regional planning organization that serves sixteen counties in the mid-east Tennessee region of the State of Tennessee. Terry served as the Director of Economic Development at ETDD for eight years prior to being selected as the Executive Director by the Board of Directors in February of 2002. Before joining ETDD, Terry served as the Assistant Director of the Knox County Office of Administration Services from 1981 until 1985.

Terry has successfully managed ETDD with 18 employees and a \$2 million annual budget for over 19 years. During that tenure, the agency budget grew from approximately \$700,000 per year to over \$2.1 million per year. In 2011, Terry successfully transitioned a major community planning program from the State Department of Economic and Community Development to the work program of the East Tennessee Development District. The Planning Advisory service now provides expert staff assistance to thirty-nine communities in the ETDD region. ETDD also manages two rural transportation planning organizations under a contract with the Tennessee Department of Transportation, a regional solid waste planning program and a regional historic preservation planning program under contracts funded by the State of Tennessee. Each year, ETDD surveys over 2200 contracts in the region to update the inventory of public infrastructure data base that is maintained by the Tennessee Advisory Commission on Intergovernmental Relations. ETDD also maintains a sophisticated geographic system that provides geographic mapping services to local governments. Recently, ETDD cooperated with the US Census to review over 65,000 addresses in the ETDD region, many of which were added to the address list for the 2020 US Census count.

Terry is a former President and past Board Member of the National Association of Development Organizations, past National Chairman of the Rural Transportation Planning Task Force, past Chair of the Tennessee Development District Association, past Board Member of the Community Reuse Organization of East Tennessee, past Board Member of the Southeast Regional Directors Institute, and is a member of the East Tennessee Industrial Council, the Tennessee Economic Development Council and the American Economic Development Council.

Terry has also provided expert testimony to the Tennessee Advisory Commission on Intergovernmental Relations, the Tennessee Housing Development Agency, the President's Rural Development Task Force, the U.S. Senate Steering Committee on Rural Development and the US House Subcommittee on Transportation and Infrastructure (two occasions).

We wish to congratulate Terry on a very successful career and much happiness in his retirement!

## **ECONOMIC DEVELOPMENT**

ETDD staff has submitted the following EDA application for the City of Clinton for Water system improvements; Federal = \$1,500,000.00; Local = \$1,889,500.00; Total amount = \$3,389,500.00

Congratulations to the City of Loudon for the announcement of an EDA grant for the upgrade of a water force main under the Tennessee River to the Blair Bend Industrial Park. The project amount is for \$3.2 million with a grant award of \$2.5 million.

ETDD staff is assisting the following communities with economic projects:

Campbell County Workforce Development: Grant amount = \$84,925.00. These funds will be used for the acquisition of welding equipment to be housed at the Campbell County High School welding laboratory.

Claiborne County Industrial Development Board: Grant amount = \$89,775.00. Funds to be used for a due diligence study that includes resistivity and rail feasibility study for the Russell Industrial property.

Eastbridge Business Park Knox County: Grant amount = \$500,000.00. Funds to be used for the construction of a centrally located pump station and the installation of approximately 4,500 lf of sewer line.

Jefferson City Industrial Development Board: Grant amount = \$500,000; Funds will be used to grade 25 acres at the Jefferson City Industrial Complex and improve road access to the Hunt property.

City of Friendsville: ETDD staff is assisting in the administration of an EDA grant that will allow the city to place additional wastewater lines along the 321 corridor to assist in the recruitment of future industrial and commercial endeavors. Grant amount = \$440,885.00.

City of Loudon: ETDD staff is assisting in the administration of an EDA grant that will allow the placement of a waterline across the Tennessee River.

## **PINI (TACIR) SURVEY**

ETDD staff recently completed the collection of data that details the infrastructure needs from all 16 counties, 56 cities, 25 school systems, and 94 utility districts. All new and existing TDOT and Bridge projects within the ETDD region have been updated as well. We thank all the

participants for their help in supplying this information to ETDD staff. Infrastructure projects for the purpose of this survey included any needed public improvement need over \$50,000 in these categories: transportation, utilities, education (facilities), health, safety, welfare, culture, economic development, and various public facilities. The data has been entered and has gone thru a detailed quality control process. TACIR will publish a lengthy summary that details infrastructure needs for all of Tennessee. The report is presented to the Governor and state legislators for use as a planning tool and a funding decision-making tool. You may view the report at the following link:

<https://www.tn.gov/tacir/infrastructure.html>

## **GRANT INFORMATION**

### **Community Development Block Grant Program (CDBG)**

ETDD staff assisted the following communities with applications:

1. Norris – Wastewater system improvements
2. Rocky Top – Wastewater system improvements
3. Blount County – Fire truck
4. Campbell County – Fire Truck
5. Caryville - Firehouse
6. Jefferson City – Wastewater improvements
7. Claiborne County – Waterline extension
8. Cocke County – Waterline extension
9. City of Loudon – Wastewater improvements
10. Harrogate – Wastewater line extension
11. Monroe County – Waterline extension
12. Oakdale – Ambulance
13. Roane County – Ambulance
14. Scott County – EMS Building
15. Jellico – Fire Truck

A total of fifteen (15) applications were submitted, requesting \$6,770,000.00 in federal funds and \$840,282.00 in local match. The total amount requested was \$7,610,282.00.

ETDD staff is currently assisting the following communities on the administration of their CDBG projects:

1. Tazewell – Housing
2. Morgan County – Waterline Extension
3. Campbell County – Drive for 55 Dual Enrollment Program
4. Campbell County – Ambulances
5. Mossy Creek Foundation – Façade Improvements
6. City of Sweetwater – Façade Improvements

7. Madisonville – Fire Hall
8. Harrogate – Wastewater Improvements
9. Cocke County – Waterline Improvements
10. Claiborne County – Waterline Improvements
11. Caryville – Fire Engine
12. New Market – Communication Equipment
13. Jefferson County – Waterline extension
14. Dandridge – Wastewater Improvements
15. Rockwood – Wastewater Improvements
16. Winfield – Fire Truck
17. Rocky Top – Fire Truck
18. Scott County – Ambulances
19. Monroe County – Ambulances
20. Sweetwater – Housing
21. City of Sevierville – Façade Improvements
22. Anderson County – Rural Waterline Extension
23. White Pine – Waterline Extension
24. Parrottsville – Fire Brush Truck
25. Union County – Northeast Fire Truck
26. Hamblen County – West Hamblen Fire Truck
27. New Tazewell – Fire Ladder Truck

7. City of Loudon – Marina development
8. City of Sweetwater – Broadband
9. White Pine – Water connection with Morristown
10. Arthur-Shawnee Utility – Water tank
11. Oneida – TCAT Power Education Classes
12. Claiborne County School Board – Wastewater at Springdale School
13. Clearfork Utility District – Water plant upgrades
14. Campbell County – Broadband extension
15. Newport Utility – Broadband extension
16. Oneida TCAT and Somerset Community College – Expansion of classroom opportunities for students
17. Tennessee Valley Boys & Girls Club of Claiborne County – Classroom expansion.

### Appalachian Regional Commission (ARC)

ETDD staff assisted the following communities with pre-applications for 2021:

1. City of Rocky Top – Wastewater improvements
2. Claiborne County – Boat dock improvements
3. Cocke County – Waterline extension
4. Grainger County – Agri-business development
5. Jefferson City – New water tank
6. City of Loudon – Marina development
7. Monroe County – Speculative building
8. Parrottsville – Wastewater system improvements
9. Blount County School District – Wastewater improvements Lanier Elementary
10. Campbell County Chamber – ADA compliance improvements to the Elk Tower.

A total of ten (10) applications were submitted requesting \$3,886,748.00 in federal funds, and \$2,407,419.00 in local match. The total requested was \$6,294,167.00.

ETDD staff is currently working with the following communities in assisting with their ARC administration.

1. Dandridge – Water tank
2. Union County – Wastewater at Sharps Chapel School
3. Plateau Utilities – Water System Improvements
4. Rockwood - Wastewater Project
5. Oneida – TCAT Equipment for Diesel Classroom
6. Scott County – Reservoir water level study

### COVID RESPONSE PROGRAM

#### Grant Application System Registration

As funding for COVID relief becomes available, communities and organizations will need to act quickly to complete the application tasks that are generally processed through grants.gov. However, many communities of ETDD are not registered with grants.gov or sam.gov, and the process of completing the registration is both time consuming and complex, often taking months from start to finish. ETDD staff is working to determine which communities, community organizations, public utilities, volunteer fire departments, police departments, and other grant-eligible entities are not registered with the primary federal government grant application systems and will provide the necessary technical assistance to complete the registration process. ETDD staff will also assist eligible entities with registering for any necessary public and private grant application portals, such as FEMA Go, as required. If your community or organization is not registered to apply for federal grants and you need assistance to complete the process, please contact Tim Hendrick at [thendrick@etdd.org](mailto:thendrick@etdd.org) to request support.

#### COVID Impact on ETDD Communities

ETDD staff is working to determine the effects of the pandemic on the local level and working with county and municipal governments and other public entities to address their needs. The communities who have not yet responded to survey requests will be contacted by phone in the coming weeks to discuss their COVID-related issues and what steps have been taken for mitigation. **Your participation with any solicitation for survey responses is very much appreciated.** The collected data will be compiled and analyzed at the municipal and county levels. ETDD staff will develop county-specific reports on the pandemic's

affects and local solutions, eventually producing a regional overview.

#### TDEC Solid Waste Annual Progress Reports

As part of the COVID response program, ETDD staff worked with Campbell, Cocke, Grainger, Hamblen, Loudon, Monroe, Morgan, Scott, and Union Counties on the preparation and submission of their 2020 Solid Waste Annual Progress Reports. Despite the increases in publicly collected Class I and Class III waste during spring and summer of 2020, public and private recycling and diversion activities remained strong, which allowed the solid waste regions to meet the mandated 25% diversion goal.

### **HISTORIC PRESERVATION**

The National Register of Historic Places (NRHP) is a program through the National Park Service (NPS) that recognizes historically significant places and resources. NRHP listing provides many benefits, including access to preservation grants and tax incentives, and limited protection from federally funded or licensed endeavors. ETDD staff can assist in the preparation of nominations to the NRHP, which are highly technical and often take around a year to prepare and process. Beyond access to grants, NRHP listing allows for widespread recognition of the site's historic significance and increased heritage tourism opportunities. A nomination application was prepared on the behalf of the Laurel Springs Primitive Baptist Church in Cosby, TN. This rural vernacular church building, which was constructed in 1914, was approved to be sent to the National Park Service by the Tennessee Historical Commission on January 27<sup>th</sup>, 2021.

ETDD successfully prepared Historic Preservation Grant applications on behalf of The Nance historic home in Rutledge, and the Sevier County Heritage Museum. Historic Grant Award results will be announced in July 2021. ETDD has worked closely with the community of Jellico, to help establish their new Historic Zoning Commission and aid them in their goal of becoming a Certified Local Government. ETDD is excited to announce that Jellico's Certified Local Government Application has been approved by the Tennessee Historical Commission.

As part of the 2020/2021 Grant Survey from the Tennessee Historical Commission, ETDD will complete 50 surveys in Newport, TN. Additionally, the THC has started a new initiative to research Post-WWII suburbs contingent upon their frequent appearances in NR nominations and Section 106 reviews. While there is substantial general context on post WWII suburban development there is nothing specific

to TN. Survey time frame for these neighborhoods is circa 1950/1960-1990. The start date can be as early as 1950 but with a preferred emphasis on 1960 and later eras. Please inform ETDD staff of suggestions for neighborhoods that might meet these criteria.

ETDD works with a variety of local and regional preservation groups and advocates that can assist with NRHP nominations, preservation grant applications, and tax incentives. Please contact Jonathan Moseley [jmoseley@etdd.org](mailto:jmoseley@etdd.org), with ETDD for preservation-related assistance and technical guidance.

### **HOUSING**

ETDD continues to administer the Emergency Repair Program with the second round of funds being allocated in July 2021. The program provides grants for home repairs in households where the applicant is at least 60 years of age or disabled, and who meets ownership and income requirements. ETDD works with local non-profits and organizations who coordinate construction activities and qualify the homeowners. These service providers are an integral part of the Emergency Repair Program's activities in our 16-county region, and ETDD is seeking more partners to complete projects in several counties, including Monroe and Union counties. THDA has recently removed the match requirement for repair projects. ETDD maintains a list of local housing partners and assistance programs that can be accessed through the Housing page of our website, or by contacting us directly with specific needs. All Emergency Repair Program Service Providers are now required by THDA to submit within pay request packets, detailed itemized inspection invoices where applicable. In addition, ETDD is to cover the cost of final inspection invoices. For more information, please contact ETDD or Evelyn Finch at [EFinch@thda.org](mailto:EFinch@thda.org).

ETDD housing staff is available to discuss housing needs and community housing grant applications. We can also provide information on local and regional housing service providers, agencies and alternate programs that can assist individuals in need of housing repair. For more information on these programs, contact Jonathan Moseley at (865) 273-6003 or [jmoseley@etdd.org](mailto:jmoseley@etdd.org).

### **RURAL PLANNING ORGANIZATION (RPO)**

On February 16, 2021, the Federal Highway Administration (FHWA) announced 49 new designations to the America's Byways® collection, including 15 All-American Roads (AAR) and 34 National Scenic Byways (NSB) in 28 states.

The Cumberland Scenic Byways was one of the routes designated.

The Cumberland Historic Byway is a 156-mile contiguous route stretching from the Cumberland Gap in East Tennessee to the Cumberland River in Middle Tennessee and includes the following counties: Claiborne, Campbell, Scott, Morgan, Fentress, Pickett, Overton and Clay. The route stretches for roughly 156 miles along a number of routes, namely: U.S. 25 E, S.R. 63, U.S. 27, S.R. 52, U.S. 127, and S.R. 111. The route was formed in 2013 as regional leaders came together to discuss the Cumberland Plateau hosting a scenic byway. Working with these communities, a consulting firm and The Alliance for the Cumberlands led the planning efforts. Using several historic and recreational sites to connect the byway route, these leaders envisioned the byway as a means to both promote tourism and economic development, but also as a way to share the scenic Cumberland landscape with travelers. Their efforts led to the creation of a corridor management plan in 2013, and in February 2021, the U.S. Department of Transportation designated the Cumberland Historic Byway a National Scenic Byway. The National Scenic Byway Program is sponsored by the Federal Highway Administration and strives to recognize, preserve and enhance select roadways that boast significant archeological, cultural, historic, natural, recreational and scenic qualities. These roadways tell unique stories about their communities that speak to byway travelers. This byway is seen as means to both promote tourism and economic development, but also as a way to share the scenic Cumberland landscape with travelers.

The East Tennessee Development District website contains the most up-to-date information on the two RPO's. The web site includes the most up to date TDOT Project Status Reports that provide a description and status of all TDOT projects in each county within the RPO. The link to this website is <http://www.etched.org/services/community-development/transportation/>.

## **PLANNING ADVISORY SERVICE**

### **Zoning for Halfway Houses, Homeless Shelters, Group Homes, and Sober-Living Homes**

There has been much interest in East Tennessee communities regarding zoning for homeless shelters, group homes, halfway houses, sober-living homes, and similar uses. Many communities would like to protect their residential communities while also following State and Federal law. What follows is a summary of how local

communities can regulate these uses in their zoning ordinance.

### **The Fair Housing Act of 1988**

The Federal government passed a law in 1988—the Fair Housing Act—that includes ‘disabled’ people as a protected class that cannot be discriminated against in housing. As part of this law, ‘disabled’ is defined to include those in recovery from drug and alcohol addiction. In practical terms, this means that a group of unrelated disabled people seeking to live together in one home *have to be treated the same* as a traditional single family living in a single-family home. No additional zoning restrictions can be placed on them that are not also placed on single family homes. This act supersedes any local or state zoning laws.

Consistent with federal law, the Tennessee State legislature in 2011 passed a state law that protects disabled people—including those recovering from drug and alcohol addiction—from discriminatory zoning laws or practices. Its stated goal is to “remove any zoning obstacles which prevent persons with a disability from living in normal residential surroundings.” (T.C.A. 13-24-101) This protection does not extend to those who are mentally ill and pose a likelihood of serious harm to others or who have been convicted of serious criminal conduct related to such mental illness, however. It also limits the number of unrelated individuals considered a family to eight (8) and does not include group homes run on a commercial basis.

### **Sober-Living Homes**

These legal protections do cover **sober-living homes**, an increasingly common living arrangement for those recovering from drug and alcohol addiction but no longer institutionalized. Sober-living homes are residences for those recovering from substance abuse that provide an interim environment between inpatient rehabilitation and reintegration into mainstream society.

Per Tennessee state law, sober living homes are defined as “any home classified as a ‘single family residence’ under 13-24-102 that provides alcohol-free or drug-free housing, promotes independent living, life skill development, and reintegration, and provides structured activities that are directed primarily toward a group of unrelated individuals who are recovering from drug or alcohol addiction and who may be receiving outpatient healthcare services for substance abuse or addiction treatment while living in the home” (T.C.A. 6-54-145). Sober living homes are **not** treatment facilities or rehabilitation centers providing a structured treatment environment.

## **GEOGRAPHIC INFORMATION SYSTEMS**

GIS staff prepared 53 maps and illustrations for projects in district communities during the last quarter. 23 of these maps were made in direct support of ETDD's grant program. A total of nine maps were made for ARC grants, which included project impact maps, above ground storage facility radius maps, and highway and railroad proximity maps for projects in the cities of Loudon, Parrottsville, and Newport, as well as in Claiborne County. Three above ground storage facility radius maps were made for environmental review of CDBG projects in Morristown, Anderson County, and White Pine. One project area map and three minority concentration maps were also made for this year's round of CDBG applications being written on behalf of Caryville, Claiborne County, Jefferson County, and Monroe County. For Site Development and InvestPrep grant applications, GIS staff created six maps on behalf of the Anderson County Economic Development Association. These maps included an aerial map, two flood maps, two parcel ownership maps, and one topographic map.

GIS projects for Planning Advisory Service contracts this quarter included seven proposed rezoning illustrations for the cities of Clinton, Kingston, Maynardville, Vonore, and Oliver Springs. GIS staff also completed four official zoning map updates per signed ordinance for Clinton, Dandridge, Rocky Top, and Jefferson City. This quarter, a map showing the Urban Growth Boundary and Planning Region was created for the city of Dandridge, and a flood zone map was created for a new Land Use Master Plan for Scott County. In Planning Advisory Service special projects, GIS staff assisted ETDD planner Jordan Rockwell by preparing several maps for a new master plan for the City of Rocky Top. For this plan, staff produced six illustrations including a rivers, floodways, and flood zone map, a steep slope map, soil map, land use map, non-motorized transportation map, and a community facilities map. Spring was a big quarter for GIS staff in the transportation realm with several ongoing projects, one new project, and news of the success of an application to the Federal Highway Administration submitted last summer. For ongoing projects, GIS staff provided a map of pre-existing sidewalks in the city of Rutledge for the Grainger County Transportation Master Plan. For Scott County's new Transportation Master Plan, staff generated a county-wide state aid map. In new projects, ETDD began assisting in the completion of a new bike-pedestrian master plan for Campbell County in tandem with TDOT and Gresham Smith. Lastly, it was announced in February that the U.S. Department of Transportation approved an application submitted last summer seeking National Scenic Byway designation for the Cumberland Historic Byway – a route

stretching from the Cumberland Gap to Dale Hollow Lake. At the time of the application, it had been 12 years since the Federal Highway Administration accepted submissions for new National Scenic Byways, so this application was a rare opportunity for ETDD GIS staff not only to highlight the scenic value of the landscape of the Cumberland Plateau, but also to contribute to statewide efforts towards increasing marketing opportunities as well as future grant opportunities for communities along the route. For the application, GIS staff took the lead on mapping all 175 miles of this byway, which runs not only through the northern portion of the East TN Development District, but also into the northern portion of the Upper Cumberland Development District. With this new designation, along with the four others received this year, Tennessee now stands at 4<sup>th</sup> in the nation for holding the most nationally designated scenic routes. This was an intense mapping effort, and the staff is ecstatic to have been a part of achieving this well-deserved success for our district.

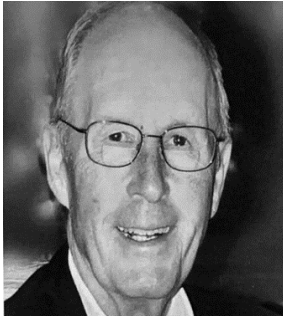

## **AREAWIDE DEVELOPMENT CORPORATION** **SBA 504 NEWS**

The SBA 504 loan program continues to assist small business owners with financing the purchase of capital assets including land, existing buildings, construction of new facilities, renovations or expansion of existing facilities, and the purchase of long-term machinery and equipment. As of March 2021, the 504 loan rates are 3.258% for the 10-year note, 3.465% for the 20-year note, and 3.492% for 25 years. Areawide Development Corporation has had one loan approved this fiscal year, currently has two loans at SBA for approval, and ten loan applications in house being underwritten by ADC staff.

Areawide Development Corporation is devastated by the loss of our trusted legal counsel and beloved member of our team. Norman Blaine Jackson passed away on March 1, 2021 after a brief but courageous battle with cancer. Norman was one of the nicest people anyone would ever have the pleasure of knowing. He always had a story to tell, a moment to teach, offered sound advice, and simply enjoyed living. Norman loved his family fiercely and leaves behind his loving wife of 39 years, Teresa; daughter Lisa and husband Kevin; grandchildren Isabella, Preston, and Chandler; brother Dean Jackson; several nieces and a nephew; and a great niece and several great nephews. Norman was born in Greeneville, TN and spent his youth in Sequatchie County, TN on the family farm. He graduated from Sequatchie County High School in 1956. He attended Tennessee Wesleyan College and served as President of Phi Sigma Kappa fraternity. He served in the Army Reserves

as a medical lab technician. He graduated from the University of Tennessee College of Law in 1967, he established a successful law practice in Knoxville, Tennessee until his retirement in 2009.

***In Loving Memory of Norman Blaine Jackson***

***March 18, 1938 – March 1, 2021***

Norman represented Areawide Development Corporation as legal counsel since its inception in 1981 and continued to serve as ADC's legal counsel until his death. Norman always came to the office with a smile on his face, carrying a sandwich for lunch, stopping at each office doorway to ask for updates on the various upcoming loan closings, and sharing the latest on his three precious grandchildren. If it were a warm, sunny day you could count on him driving his convertible to the office. Norman Jackson was not just our legal counsel he was our trusted advisor, dear friend, but most importantly he was family. To say Norman will be missed is an understatement! Please keep Norman's family and his ADC family in your thoughts and prayers in the days to come. Norman, we love you and we have got it from here....

**ETDD STAFF NEWS**

**New Executive Director**

The Executive Committee of East Tennessee Development District (ETDD) has named Richard (Rick) Yakubic as the new Executive Director of the East Tennessee Development District. For the past 11 years, Rick has served the organization as the Deputy Director and Fiscal Officer. While at ETDD, he was in the class of 2017 East Tennessee Leadership class. Prior to his ETDD employment, Rick was employed in Greeneville, Tennessee as the Chief Operating and Chief Financial Officer for Family Ministries for 5 years and was with MECO Corporation for 15 years where he was the Director of Engineering for 4 years and the Director of Continuous Quality Improvement for 11 years. Community service in Greeneville included serving as Chairman of the Board of Directors for the Tennessee

Vocational Training Center, United Way's President, Vice President, Campaign chair and allocations committee member, Greene County Leadership alumni board, facilitator for leadership Greene County, and was part of the task force to develop the Greeneville/Greene County Partnership. Rick earned his Bachelor of Science Degree and Master of Arts Degree in Organizational Management from Tusculum University. Rick grew up in Belle Vernon, Pennsylvania, near Pittsburgh, where he received his Associate Degree in Industrial Engineering at Pittsburgh Technical institute and started his career in manufacturing. He then moved to Charlotte, North Carolina where he was part of the team to build a new manufacturing facility in Fort Mill, South Carolina. Congratulations Rick!

**New Fiscal Officer**

ETDD is pleased to announce that Alan Woods joined our staff as the new Fiscal Officer for East Tennessee Development District on March 8, 2021. Alan has a diverse career in banking, retail, tax, and manufacturing. A graduate of East Tennessee State University, he is a CPA with an active license in the State of Tennessee and a member of the Tennessee Society of Certified Public Accountants. A Knoxville native, Alan lived in East Tennessee his entire life and is excited to be of service to the region he calls home. Welcome Alan!

This newsletter was funded in part through grants from the State of Tennessee, the Appalachian Regional Commission, the Economic Development Administration, and other federal, state, and local sources. Materials from the ETDD Newsletter may be freely reprinted with proper crediting of the source.

# Calendar of Events

## April 2021

- 2 Good Friday, ETDD offices closed
- 13 ETDD Executive Committee & ETHRA Policy Council, Buddy's BBQ Banquet Hall, Knoxville
- 20 ET Regional Fire Chiefs Meeting, City of Loudon Fire Dept., Loudon
- 22 TDDA monthly meeting, Nashville, TN (virtual platform)
- 29 ATVG Regional Meeting, Chesapeake's West, Knoxville

## May 2021

- 11 ETDD & ETHRA Annual Business Meetings, Rothchilds Conference Center, Knoxville
- 25-27 TCSA Legislative Conference, Gatlinburg
- 28 TDDA monthly meeting, Nashville, TN
- 31 Memorial Day holiday, ETDD offices closed

## June 2021

- 8 ETDD Executive Committee & ETHRA Policy Council Meetings, TBA
- 24 TDDA monthly meeting, Nashville, TN

## July 2021

- 8 ETDD Executive Committee & ETHRA Policy Council Meetings, The Venue, Lenoir City
- 8 ETDD Annual Awards Banquet, The Venue, Lenoir City
- 20 ET Regional Fire Chiefs Meeting, TBD
- 22 TDDA monthly meeting, Nashville, TN
